Tel: 609-292-1250 Fax: 609-777-1914

LIST OF UPCOMING APPROVED CONTINUING EDUCATION COURSES AND CONFERENCES: AS OF APRIL 3, 2017

Both Licensed Site Remediation Professionals (LSRPs) and course providers may submit an application for approval of continuing education credits (CECs) for a course or conference. The application form is available on the Board website.

The following table lists every course or conference that has been approved for continuing education credit by the Board, along with the course date and location, contact information, and the number and types of continuing education credit, “Technical”, “Regulatory”, and “Ethical” that may be earned by attending the course. If you wish to receive more information about any listed course please contact the course provider.

Every LSRP is required to complete 36 continuing education credits during the three year term of his or her license. Credits must be earned as follows: three CECs in ethics education, ten CECs in regulatory education, and fourteen CECs in scientific and technical education. The remaining nine CECs may be earned in any one or more of the three areas of education. It is the responsibility of each LSRP to track fulfillment of the continuing education requirements. Every course provider is required to provide LSRPs with certificates upon completion of a course. LSRPs should keep these certificates as they may be required to be presented to the Board as part of the application for license renewal. LSRPs that do not receive a certificate within 30 days of completing a course should contact the course provider and request the certificate.

Please note that in approving a continuing education course about a particular remediation technology or method, the Board is not endorsing or recommending the use of that technology or method.

APPROVED COURSES ARE LISTED NUMERICALLY BY COURSE APPROVAL NUMBER.
